

SYSTEMS THAT POWER LIMITLESS GROWTH

All the tools you need. One unified platform.
Built to scale. **Designed to win.**

SECURE

Enterprise-grade protection for what matters.

POWERFUL

Run smarter, faster, and stronger.

SCALABLE

Built to grow with your business.

UNIFIED

Everything you need. One platform.

UNIFY. AUTOMATE. DOMINATE.

I spent 4 hours training the new hire on our CRM, she quit today. Not looking forward to doing this all over again next week.

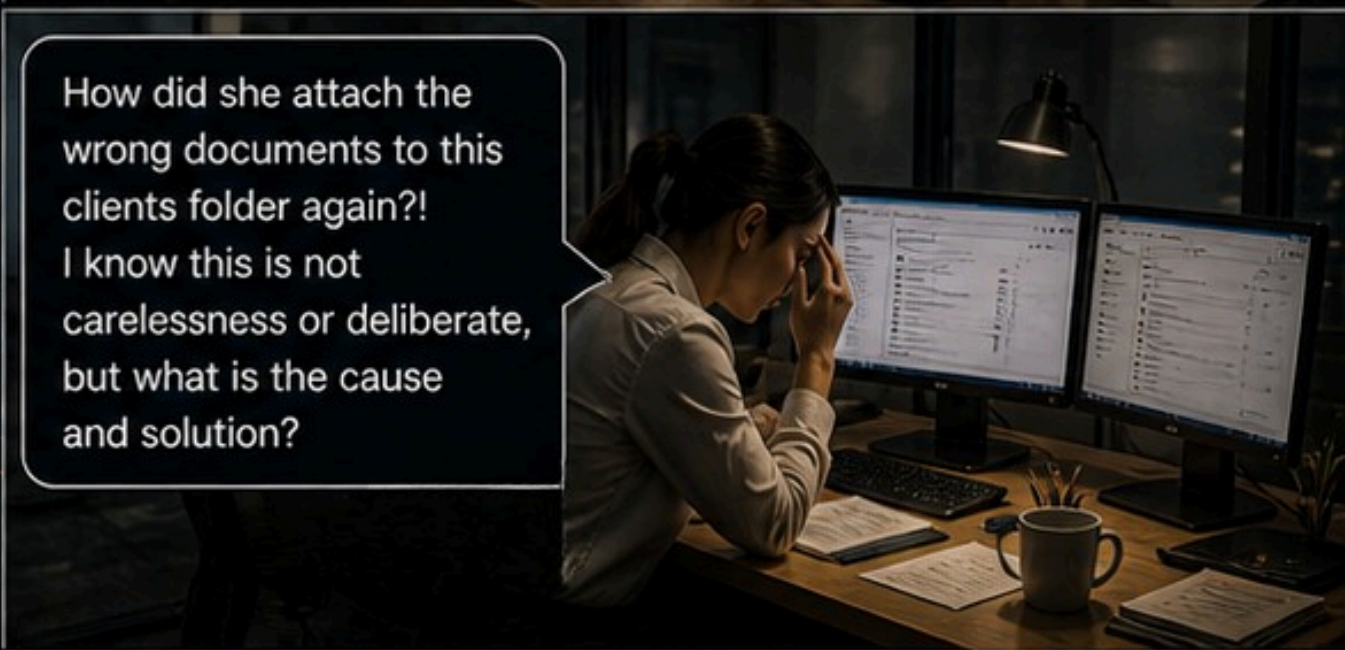

Our team is spending more time finding information than actually getting work done.

Why does generating a simple client report take 3 different tools and 5 exports?

My worker keeps getting hours wrongfully docked. I can't keep fighting payroll every week.

When did they start charging us in USD?!

How did she attach the wrong documents to this clients folder again?! I know this is not carelessness or deliberate, but what is the cause and solution?

Where is that report from last month? I swear it was right here...

**3 OR MORE EMPLOYEES.
TOO MANY TOOLS.
TOO MUCH CHAOS.**

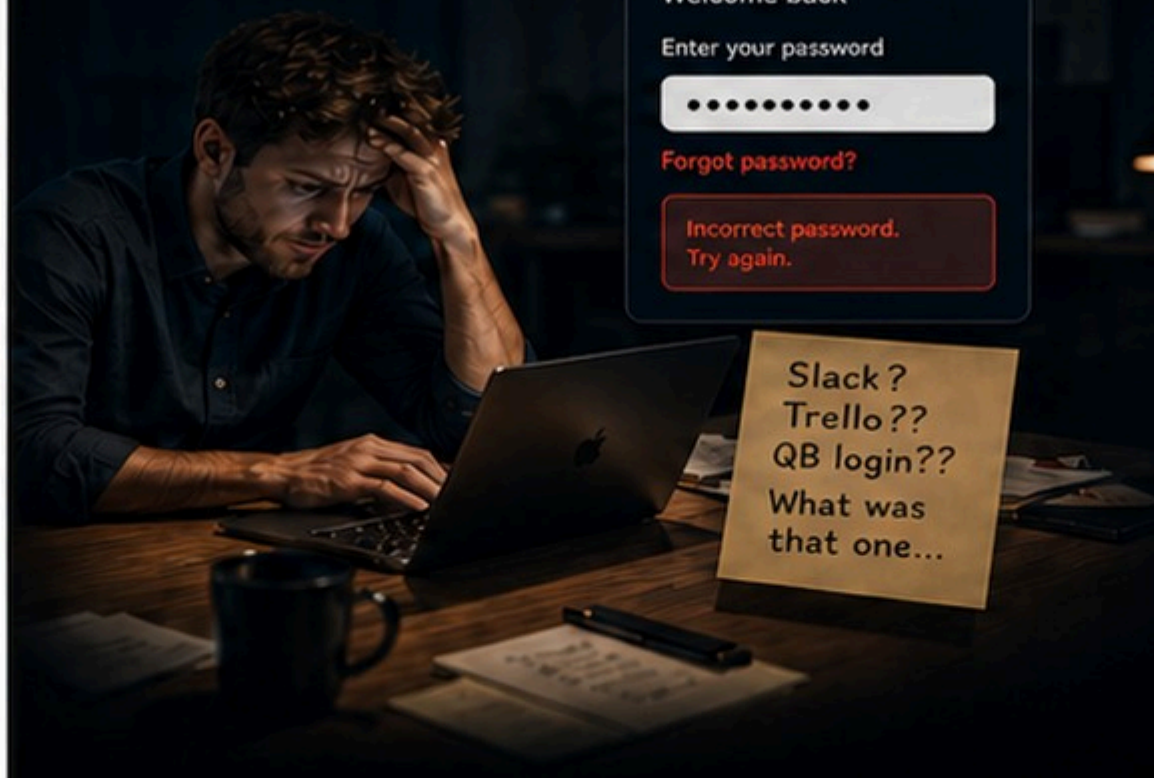

WHAT YOU'RE PAYING EACH MONTH (AND STILL NOT GETTING EVERYTHING)

Slack	\$12.50 / user	Mailchimp	\$20.00 / month
Trello	\$10.00 / user	Calendly	\$10.00 / user
Google Workspace	\$12.00 / user	Notion	\$10.00 / user
Dropbox	\$15.00 / user	Stripe	2.9% + 30¢ / txn
QuickBooks	\$70.00 / month	...and more	

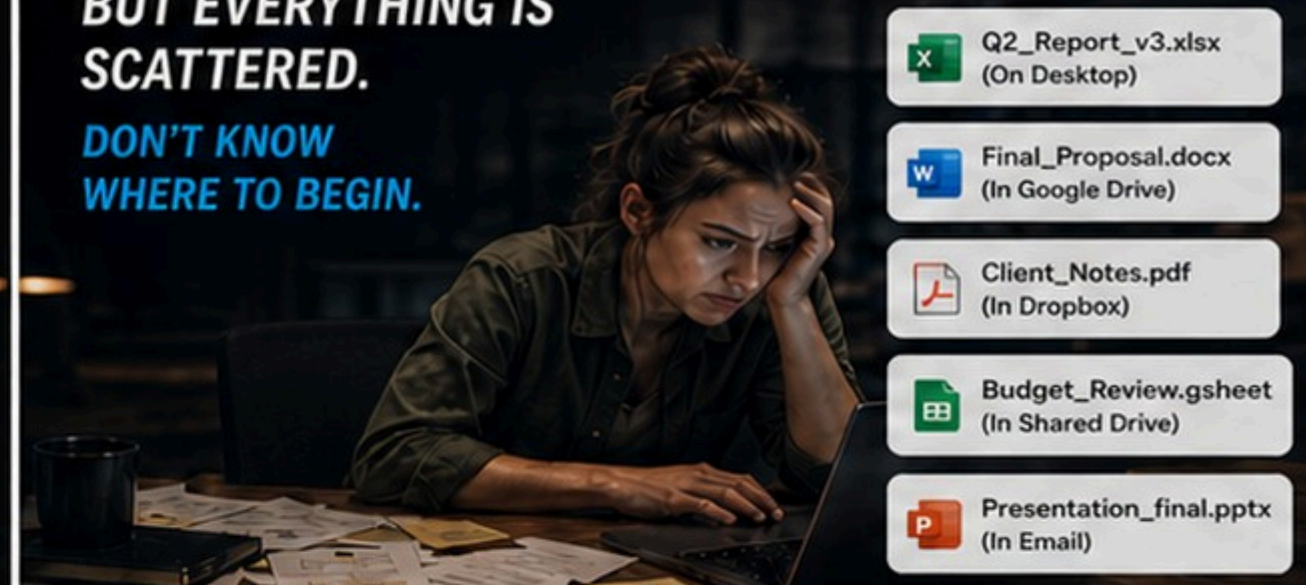

TOTAL: \$300-\$500+ / MONTH
...AND IT STILL DOESN'T DO EVERYTHING YOU NEED.

**CAN'T REMEMBER
ANOTHER PASSWORD.
LOCKED OUT. AGAIN.**

**DEADLINE TODAY.
BUT EVERYTHING IS
SCATTERED.**

**DON'T KNOW
WHERE TO BEGIN.**

**WASTED TIME. MISSED INFO.
THINGS FALL THROUGH THE CRACKS.**

**EVERYONE. DIFFERENT PROBLEM.
SAME RESULT: WASTED TIME. MORE COST.**

<p>SALES Can't find the latest proposal.</p>	<p>MARKETING Files are everywhere.</p>	<p>OPS Data doesn't match up.</p>
<p>FINANCE Too many tools. Too many logins.</p>	<p>SUPPORT Customer info is scattered.</p>	<p>FOUNDER No visibility. No control.</p>

YOU'VE TRIED UPGRADING. IT STILL DOESN'T SOLVE IT.

Starter Plan	Limited features.	Still disconnected.	✗
Team Plan	More users.	Still more tools.	✗
Business Plan	More storage.	Still missing key features.	✗
Enterprise Plan	More cost.	Still not built for YOU.	✗

**MORE COST. SAME PROBLEMS.
THERE HAS TO BE A BETTER WAY.**

**WE'RE ALL FEELING IT.
BUT WE'RE PAYING TOO MUCH
FOR TOO LITTLE.
THERE HAS TO BE A BETTER WAY.**

**ONE TEAM. ONE PROBLEM.
ONE GOAL: FIND A BETTER WAY.**

**THERE IS A BETTER WAY.
ONE SYSTEM. TOTAL CONTROL.**

System Recreation

RECREATE YOUR ENTIRE STACK

\$9,000 — shipped in 90 days

Recreating your full business setup—tools, workflows, and data into one unified system that mirrors how your company actually operates.

-  Full replication of your entire operational stack (Sales, HR, Finance, Operations, and custom workflows)
-  Desktop environment aligned to how your team currently works
-  Branded interface matching your existing structure, terminology, and processes
-  End-to-end workflow mapping from all current tools into centralized automation logic
-  Task routing and internal processes rebuilt based on real cross-department operations
-  Task-based integration for systems that cannot be recreated (e.g. payment gateways, social media platforms)
-  Real-time syncing to keep external systems and internal system aligned
-  Reporting layer recreated from your current metrics and outputs
-  Role-based access matching your current permissions and hierarchy
-  Security, logging, and audit structure applied across all recreated processes
-  Private data architecture consolidating fragmented data sources
-  Full ownership of the rebuilt system and internal data flows
-  Foundation structured to replace external tools where possible
-  Operational documentation for the recreated system—how it runs, how your team maintains it, and how you expand it
-  Modular expansion on top of the recreated baseline—new layers and automation attach without redoing the full migration

Foundation System

TEEYA PRODUCTIONS ORIGINAL SYSTEM

BEST VALUE

\$7,500 — shipped in 90 days

A proprietary AI-powered operating system designed and built by Teeya Productions. This is not a recreation of your current setup—this is a net-new system architecture replacing your existing tools with a fully owned platform.

-  Original system architecture designed by Teeya Productions (not a rebuild of your current stack)
-  Replaces fragmented tools with a unified AI-powered operating system
-  Secure browser-based application (no external SaaS dependency)
-  10 core operational tools configured to your business needs
-  Fully branded interface (logo, colours, workflow alignment)
-  Built-in AI assistant with foundational automation logic
-  Unlimited users (10 pre-configured, expandable without restriction)
-  Visual pipeline and workflow management system
-  Integrated invoicing and payment handling (via secure external gateways)
-  Role-based admin and permission controls
-  Centralized document and contract storage
-  Private data architecture (no vendor lock-in, no shared environments)
-  Complete operational documentation (run, maintain, expand)
-  Modular expansion capability for future layers and automation upgrades

SECURE YOUR FOUNDATION

Mobile Application

FULL SYSTEM ACCESS ON MOBILE

\$2,500 — shipped in 30 days

Mobile application delivering the same capabilities as your full system rebuild or TP7500, optimized for on-the-go operations.

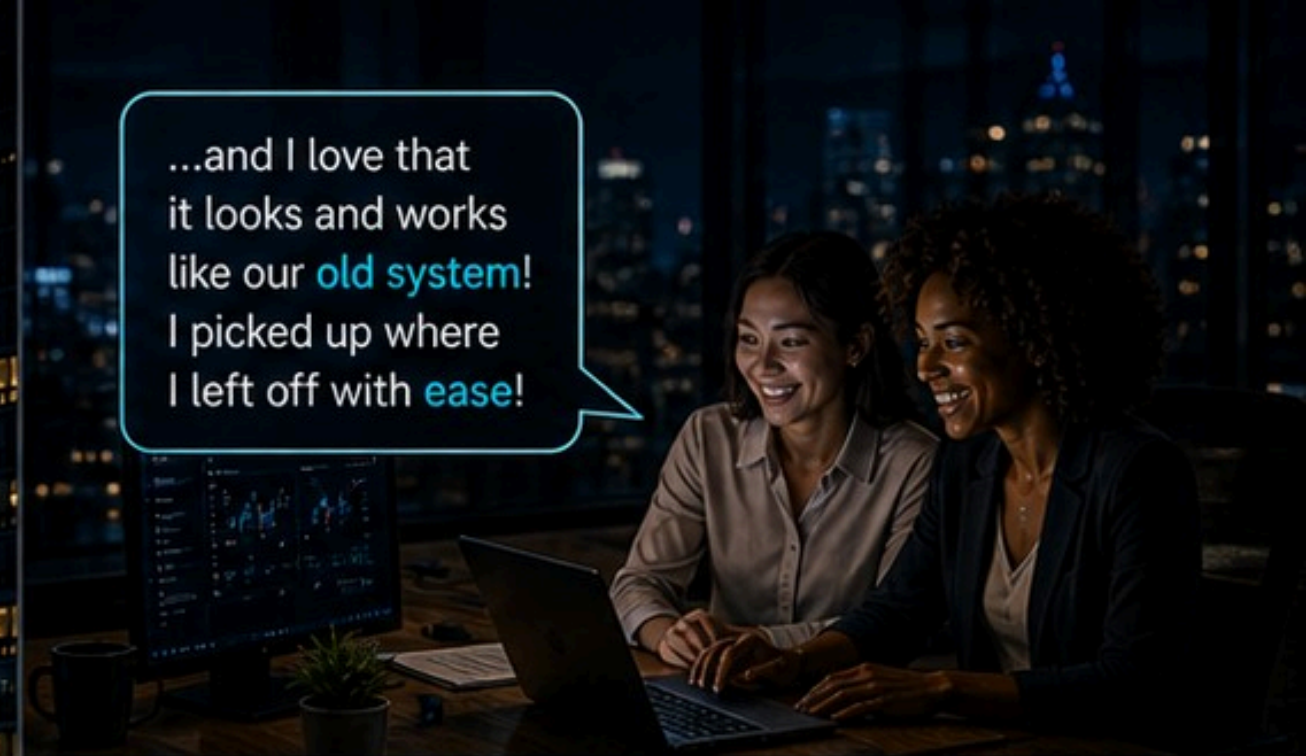

-  Complete access to your full system functionality on mobile (same as rebuild or TP7500)
-  Built for both iOS and Android compatibility
-  Real-time data sync with your core system (single source of truth)
-  Mobile-optimized UI aligned with your workflows and branding
-  Full CRM, operations, finance, and automation access
-  Task management, notifications, and live updates
-  Secure login with role-based access control
-  Integration with external systems where required (e.g. payment gateways, social platforms)
-  Offline-capable actions with sync on reconnect (where applicable)
-  Push notifications for critical actions and updates
-  Private data handling aligned with your core system architecture
-  Full ownership of the mobile application and its data interactions
-  Documentation aligned with your core system (run, maintain, expand)—covering day-to-day mobile use alongside the platform lifecycle
-  Modular expansion support mobile stays compatible as new layers and automation upgrades roll out on your core system
-  Performance optimized for daily operational use
-  Deployment ready for internal teams

* **Structural Guarantee** applies to all tiers. No hidden subscription fees. Every tier comes with **12 months of 7 days/week live support (7am–7pm)**, structured to empower you to confidently maintain, evolve, and scale your system independently. This ensures you and your team can safely manage, optimize, and expand the platform over time.

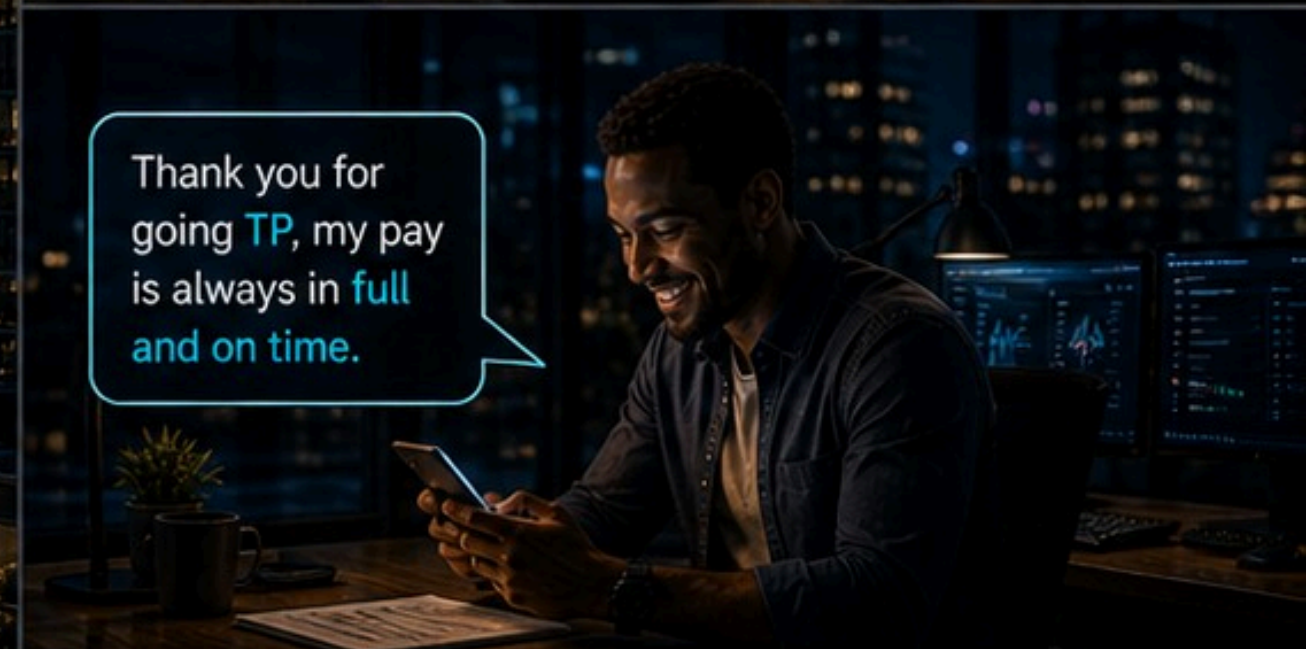

Any projects or builds that take longer than the above ship times to produce will impact pricing.

...and I love that it looks and works like our **old system!** I picked up where I left off with **ease!**

Thank you for going **TP**, my pay is always in **full and on time.**

TEEYA PRODUCTIONS
